Amazon rainforest fires are an international crisis

Countries should be heavily fined for not putting out forest. (80)

Of course, I think we should fine the countries that don't focus on the issue, so we should take action to avoid burning and exhaust emission. In the recent years, Amazon rainforest have been a serious issue. Keeping burning without putting out may threaten the people in the world as the exhaust consists of

much toxic substance which damages our health. We also set up a law to fine the country that don't put out the fire and not focus on this issue. In daily life, we can take the public transportation more to reduce pollution.

Train drivers in UK earn more than pilots

Nurses should be paid more than train drivers. (95)

I think that being a train driver isn't a good job for me as I didn't like to do the same job every day. It makes me bored and not interested. Most of train stations in foreign countries are dirty and overcrowd. Although the salaries are higher than mine now, I will not be a train driver. By contrast, I think being nurse is a good job because they often have patience for the people who gets injured or sick. Although it is worth respect. They must stand by when the emergency thing happens. The two jobs have different forms so we should respect every career.

Teenager sells her old bath water in bottles

There is something wrong in the world if people buy old bathwater

I think if people buy old water, it will cause some problems, such as disease, poison substance and so on. We are supposed to stop people from making the same mistakes. There are many tips for making money on Instagram. You can sell practical objects or clothes instead of selling gross things. It also causes people who buy her old water for special sentimental purposes. Seriously, they even want to get her everything or herself. It's dangerous for her to continue selling old water and pictures.

新聞標題	Amazon rain-forest fires are an international crisis
議題	Countries should be heavily fined for not putting out forest fires.
我的回饋	I think these countries shouldn't be heavily fined for not putting out forest fires. Because the forest fires may be a nature circulation. I think it's not human's business. The nature is unpredictable. Maybe forest fires are a good circulation. If humans put out the fires, it may destroy the ecosystem. The above is my opinion.

新聞標題	Train drivers in UK earn more than pilots.
議題	Nurses should be paid more than train drivers.
我的回饋	I think that nurses should get more money than train drivers. The reason is that nurses pay a lot of efforts to take care of patients. And it also needs to help doctors to perform the operation. Nurses usually work overtime too. So I think nurses should get more money.

新聞標題	Teenager sells her old bath water in bottles
議題	There is something wrong in the world if people buy old bathwater.
我的回饋	I think it's not totally wrong. Maybe some fans will see it as a idol adoring behavior. They maybe also see it as a collection. So I think there are a variety of ways to adore a star. Everyone has a different way to respect their idol.

新聞標題	Trains drivers in UK earn more than pilots
議題	Nurses should be paid more than train drivers
我的回饋	I strongly agree that the nurses should get paid more than train drivers. As train drivers only have to keep the passenger's safety and check if the door is closed, they don't even need to drive the train because the train line are fully automated. On the other hand, nurses have to take good care of patients and handle the patients' rude family. When the natural disaster come out, all they have to do is do their best to help cure the patients. Also, they face the dead and newborn every single day. Nurses deserve to have more money than train drivers.

新聞標題	Amazon rainforest fires are an international crisis
議題	Factory farming
我的回饋	I think pollution from cars is the main cause of global warming, because when we ride in car it can emit a lot of exhaust. It would cause air pollution, even leading to the temperature rising. Another factor lead to global warming is deforestation. When we burn the forest, it would produce so much CO ₂ , not only destroy animal's hometown but also increase the speed of global warming. We only have one earth. It's our hometown. All we have to do is protect and cherish it.

新聞標題	Teenager sells her old bath water in bottles
議題	There is something wrong in the world if people buy old bathwater
我的回饋	I think it's so gross to buy someone's bathwater. Because they might have some disease or get sick, it's not hygienic to everyone. Another reason is that the buyer maybe have some psychologic disease. There's something wrong with their mind.

新聞標題	Train drivers in UK earn more than pilots. 95
議題	Nurses should be paid more than train drivers.
我的回饋	Yes, I strongly agree nurses should be paid more than train drivers. The nurse's working hours are much longer than the train drivers. Besides, nurse's must be on call everyday, and they must focus on the patient's moves. Nurses also have to take care of the patients every day, and sometimes they are too busy to have a meal. They not only pay all their energies but even health, just to take care of our health. This is why I strongly agree nurses should be paid more than train drivers.

新聞標題	Teenager sells her old bath water in bottles. 85
議題	There is something wrong in the world if people buy old bath water.
我的回饋	Nothing is right or wrong. There may be sentimental purposes, as well as buyer's freedom. However, there are still some doubts about this behavior. There may be problems with AIDs and personal safety. We can't control their behavior but we can share our advice with them. That's why I think it's nothing right or wrong.

新聞標題	Smoking can damage the eyes. 92
議題	Cigarettes should be banned worldwide.
我的回饋	Absolutely yes! Many people smoke in public, which affects the health of others. Not only will it hurt your money, it will also increase your risk of cancer. More importantly, cigarettes contain chemicals flowing in the air are enough to cause health problems. So I support the government to set a law to protect those who don't smoke! And we should advocate the harm of cigarettes or encourage people "stuck it out".

新聞議題討論紀錄

學期別：108-1

學生姓名：詹南煒

班級：英三甲

9.0

新聞標題	Amazon rainforest fires are an international crisis
議題	Countries should be heavily fined for not putting out forest fires.
我的回饋	I think that they are necessary to be heavily fined for not putting out forest fires. Because the forests are a large part of producing the oxygen. If the forest fire not putting out, it will not only cause the global warming rapidly but also can't provide enough oxygen for us. It is a very serious condition that everyone don't want to see.

9.2

新聞標題	Train drivers in UK earn more than pilots
議題	Nurses should be paid more than train drivers.
我的回饋	I agree. First, nurses also need to pay a long time on work. Train drivers only need to drive the train, but nurses should take care of the patients or deal with any problem. Second, the job of being nurses is demanding, because they need to endure the patients' bad emotions and comfort them. The last reason is nurses need to work 24 hours, and don't have enough sleep. Thus, I think that nurses should be paid more than train drivers.

8.2

新聞標題	Teenager sells her old bath water in bottles
議題	There is something wrong in the world if people buy old bathwater.
我的回饋	I think that there is truly wrong. First, I considered that if you buy old bathwater it maybe represent you have mental disease. Second, I also think that the old bathwater is very gross and the old bathwater is useless. So I think that this shouldn't exist.
